

Southern Otways Sustainable Inc.

Thank you for your interest in joining Southern Otways Sustainable (S.O.S)

S.O.S is committed to transforming the electrical energy system in Apollo Bay and surrounds to 100% renewable energy by 2030. We will do this by:

- producing local energy through rooftop solar
- increasing energy efficiency in our homes and businesses
- growing local storage
- long-term through local distribution and community sharing of solar energy

By becoming a financial member of S.O.S you will:

1. **Be part of a movement** committed to creating a more reliable, resilient, environmentally friendly and cost-effective energy system for our community.
2. **Feel proud** that you are providing moral and financial support to a small voluntary community group, working for the well-being of our local community.
3. **Have a voice** to shape how the community can collectively be more energy efficient and rely more on renewable energy sources.
4. **Connect into and be informed by** a network of trusted and concerned local volunteers and their broader contacts.
5. **Have access to** information evenings, social gatherings, e-newsletters, participation in the committee, voting rights.

With a one-off joining fee of \$5.00 you will support us to unleash the power of our community to address local energy needs. If \$5.00 is too much, please contact us as we do not want to lose you due to financial hardship. Alternatively, if you really like what we do and want to pay it forward, feel free to pay a bit extra.

By submitting an application, you agree to support the purposes of the Association and to abide by the Southern Otways Association Rules. These rules can be viewed by clicking this link.

Submission of an electronic membership application is taken to be signed by the applicant. A paper membership application must be signed by the applicant.

To apply for financial membership, please complete the form below, submit it to southernotwayssustainable@gmail.com and pay the membership fee via bank transfer (PAY ID).
